Hundred Figures of Birds, Beasts, Fishes and Insects, elegantly en-
graved. In this Work are contained Descriptions of the Animals,
Plants and Minerals of the several Parts of the World; with their
Characters, Places of Productions, and an Account of their Virtues
and Uses in Medicine and Mechanicks. In the first Volume is com-
prized the History of Metals, Minerals and Gems; of Fossils buried
in the Earth at the Deluge, and since petrified; of later Petrefactions;
and all that concerns the Study of Fossils. In the second is explained
the several Systems of Botany; and the Vegetables of the different
Parts of the World, remarkable for their Beauty, Singularity and Use
are described at large; together with their Virtues, Uses, and the
Preparations from them: In this Volume is comprized the Substance
of all that has been written on the Study of Vegetables. In the
third is contain'd the History of Animals, Insects, Worms, Serpents,
Birds and Fishes; the whole containing above 1600 Figures, *curiously

This Day is published,

A Treatise of FRUIT TREES; shewing what Walls, Aspects, and Soils are proper for the several Sorts of Fruit Trees commonly planted in our English Gardens; the Manner of preparing proper Soils; the Method of planting, disbudding, cutting and nailing Trees; by which they will easier bear and sooner cover the Walls than by any other yet published; explain'd by seven large Copper Plates. The ill Effects of the Honey Dew and Smother Flies upon Fruit Trees, and how prevented, and other Causes of Barrenness accounted for; with Rules to remove 'em even in the oldest Trees, if the Roots are not too much impair'd. Directions for the Management of Orchards, or tall Fruit Trees; wherein is shewn what Sorts of natural Soils are best for the several Kinds, how to alter and improve them if wanted at the least Expence. The Manner of gathering all Kinds of Fruits, and preserving such as are for Winter Use.
